

Oil Treatment for Teak

- for all hardwoods inside and outside
- shade-intensifying impregnating oil

Areas of use

- Suitable for garden furniture and hardwoods which are not varnished or stained – old varnish and stains must be sanded off the stable wood
- Colourless only for use in indoor or covered outdoor areas

Property profile

- Repels water
- Weatherproof and moisture-regulating
- Prevents wood from drying out
- Pigmented versions prevent greying
- Brilliant colours
- Easy to apply
- Subsequent treatment without sanding

Directions

Wetted textiles (e.g. cloths, cleaning rags, work clothing) may have a tendency to self-ignite, so these should be collected in fire-proof waste containers and disposed of
Clean the furniture and allow it to dry completely before treatment
Apply a thin and even layer with a soft cloth or paintbrush
Repeat the process once it has dried completely
Drying: dust-dry after approx. 6 hours, can be painted over after approx. 24 hours
Ensure good ventilation
Stir well before use!
Take up any excess material with a dry brush or cloth after a maximum of 30 minutes.

Storage / Shelf life

Store in the sealed original container in a cool, dry, and frost-free place. Can be used for at least 1 year after the date of purchase

Disposal

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

Safety advice

Keep out of the reach of children.
Use an A2/P2 combi-filter when spraying.
Use a P2 dust filter when grinding or sanding.
Ensure the area is thoroughly ventilated during application and drying.
Do not eat, drink or smoke while using the paint.
In the event of contact with the eyes or skin, rinse out thoroughly and immediately with water.
Do not allow it to enter the ground, the sewage system or any bodies of water.
Clean tools with soapy water immediately after use.
Only send fully emptied containers for recycling.
Take any leftover liquid material to the collection point for waste paint.

Precautionary statements / Hazard statements
